

# • MOST COMMON AUTO ACCIDENT INJURIES •

*Some people encounter pain and tension right away, while other times the symptoms may get worse over time.*

## Chiropractic Care After a Car Accident

Your recommended course of treatment will differ depending upon the degree of injury. It is recommended to consult with your chiropractor to chart the best course of action. Chiropractors are musculoskeletal specialists, and have the know-how to assess and treat almost any problem related to the nerves, muscles, joints and connective tissues of the spine.
